

MAHESH GITE

SOFTWARE DEVELOPER

Sakur | Email: gitemahesh32@gmail.com | Phone: +91 9637201245

ABOUT ME :

I am a passionate web developer skilled in Angular and front-end technologies. I have worked on projects related to job portals and education LMS. I like to build teams, collaborate effectively, and manage them to deliver successful projects. I aim to grow as a developer while building applications that make systems more efficient.

TECHNICAL SKILLS:-

Angular	HTML / CSS / Bootstrap	API Integration	Responsive Design
Javascript	Primeng	Design	
React.js(Basic)	SQL(Basic)	Git Hub / Git Lab / BitBucket	

PROFESSIONAL EXPERIENCE:-

Software Developer (Frontend Developer - Angular)

- Currently working on the LIMA (Life in Managing Audit) project as a Frontend Developer.
- Developed enterprise-level Angular modules and reusable UI components.
- Built responsive user interfaces using Angular, HTML5, CSS3, Bootstrap, and PrimeNG.
- Implemented Angular Reactive Forms with dynamic validations.
- Integrated REST APIs for seamless frontend-backend communication.
- Developed dashboards, data tables, reports, and CRUD functionalities.
- Optimized application performance and resolved SonarQube code quality issues.
- Collaborated with Backend Developers, QA Engineers, and Business Analysts in Agile development.
- Used Git, Bitbucket, Jira, Outlook, and Postman for version control and project management.

PROJECTS

Angular | TypeScript | PrimeNG | REST APIs

LIMA (Life in Managing Audit)

Role: Frontend Developer

- Developed audit management modules using Angular.
- Built reusable and responsive UI components.
- Developed dynamic forms with complex validations.
- Integrated frontend with REST APIs.
- Worked on dashboards, reports, CRUD operations, and bug fixes.
- Improved UI performance and resolved SonarQube issues.

Simplify VMS (Vendor Management System)

Angular | TypeScript | REST APIs

Role: Frontend Developer

- Developed Vendor Management and Configuration modules.
- Created responsive and reusable UI components.
- Integrated frontend modules with backend APIs.
- Implemented form validations and UI enhancements.
- Worked on production support, bug fixing, and feature improvements.

LANGUAGES

English - Professional | Hindi - Professional | Marathi - Native

KEY STRENGTHS

- Angular Development
- Responsive Web Design
- Reusable Component Development
- Clean Code Practices
- Quick Learner

HOBBIES & INTERESTS

Learning New Technologies * Building Web Applications * UI/UX Development
Team Collaboration * Exploring Modern Frontend Technologies
